Past civilizations and cultures engaged highly developed systems designed around caring for the terminally ill and easing them through the process of dying, whereas modern cultures tend to hide from death and sequester the dying. She also teaches methods of matching their states of consciousness to stay connected throughout the experience. This is not a path for everyone, but if you do feel called to minister to the dying in this way, this book will b This is an excellent book, providing both theoretical background and practical information on the practice of death midwifery.
