Tweed considers how religions situate devotees in time and space, positioning them in relation to the world. Overall, I love this book and I find it incredibly useful for research and for teaching. Robert Thompson rated it really liked it Jan 28, It is compelling for its inventive exploration of a particular model of religion... Crossing and Dwelling constructs a remarkably thoughtful synthesis that will stimulate much discussion.

Jul 05, Michael rated it really liked it. Throughout the book he offers numerous examples of the first couple of chapters his main category is "religion" or "religions" but later in the last three chapters--and especially the final two--he begins to talk a lot about "the religious," as in people involved in religion.
