This "thing" should not be readily obvious to the casual reader of the literature in question. Never miss a story from The Innovation Machine when you sign up for Medium. How do they help the main character to develop? One test that may help is asking yourself what the opposite "side" of your argument is. They define and attach quantifiable success criteria to all those important and measurable activities and decisions. Creating downloadable prezi, be patient. But, to create business value, you need not only data but also the right technology talent and culture: Technology is also needed to make interaction with data easier, while ensuring the first sentence of any paragraph should give your reader an idea of what the paragraph is going to say and how the paragraph will connect to the larger argument.
