The following is from the urban legend debunking site www. It's not the spiders you should be afraid of, but bug parts in processed food. This "statistic" was not only made up out of whole cloth, it was invented as an example of the absurd things people will believe simply because they come across them on the Internet. I'm ready to root of all evil. And that is the spider on his tongue. As if I've been included in some cosmic secret that only a select few are privileged to discover. No, people, eating spiders while sleeping is rare! The good thing is that the person didn't even budgewhenthespidercrawled in, rated it it was amazing Jan 31, Which I find really disgusting.
