This effort proceeded in cooperation with many different State and local agencies and private companies. Infrastructure protection of critical assets such as pipelines and more than 10, FAA facilities is another key mission of the TSA. This new information-based system will dramatically improve our ability to respond. Properly trained and equipped first responders have the greatest potential to save lives and limit casualties after a terrorist attack. A major act of biological terrorism would almost certainly overwhelm existing State, local, and privately owned health care capabilities. The United States has never had a national blueprint for securing itself from the threat of terrorism. Combating terrorism includes both anti-terrorism, defensive measures used by governments have recognized the importance of these men and women and remain committed to their most critical mission of public safety. The Budget also makes available funding to support the development of regional medical mutual aid compacts.
