And these are relatively speaking the more minor things – not the threats of removal or the actual removal of children from their parents – to be taken into care or into hospital, where many have then been forcibly subjected to life changing psychiatric mis-management of their illness. And certainly, we have come across many accounts of this, particularly from young people.

*A Flicker of Hope*: This collection contains my journey through a chronic illness. Its words have brought more comfort and courage to more people at more times at more places than any other words ever written. Lists with This Book. *OncologyNursingForum*, 18175-I knew I really liked them, but my groups are quite diverse--men, women, all ages, caregivers, various "levels" of belief, all kinds of cancers and stages of it--so I wasn't sure how everyone would respond. Some are happy, some are not, but they are well written and all sound honest.
