This involved having goals and aspirations, and being involved in activities that were fulfilling and had meaning and purpose. This could be from a partner, friends, family or health professional. Archived from the original on 3 March. People that don't appreciate the nuances of their lives live in a constant state of suffering. The services recruited 21 people to take part in the research and 17 were subsequently interviewed two could not be contacted, one cancelled due to illness and one did not attend the arranged interview. This same quandary was communicated by our interviewees. Our sample was primarily users of mental health services rather than a wider population. There is no greater an energy sucker in life than negativity. A post shared by deathendless on Feb 13, at
