As always This can be seen, for example, in much anthropological writing in recent years that opposes reductionism and essentialism. While much of this theoretical turn has been inspired by scholars working in the anthropology of religion, fields ranging from science studies to Amazonian ethnography have also come to question conventional assumptions about and uses of agency as a concept. Objects thus become agents for the transformation of humans. One of the central contributions of the volume as a whole is to re-open many of the questions previously approached in linguistic relativity debates. Anthropological perspectives London, Routledge:
