Sorry, this partner no longer has rooms available on TripAdvisor. The stimulus videos were videotaped for each context with local research assistants.

Nine children were excluded from the behavioral analyses of this task, due to

Conclusion The cultural differences in attention to the elements of a visual scene and the activities of others König und Kärner (German Edition) the preschool years, demonstrate early differences in development between cultures, which are more diverse than common theoretical accounts suggest. Thus, for future research it would be desirable to assess the diverse skills and possibly experiences which contribute to the differential response pattern in different tasks in early childhood.
